

Why in Amsterdam?

Past ITC conferences have been very successful, attracting a large number of delegates from many countries. Many of these conferences were held in Europe. Amsterdam fits in this tradition. Amsterdam is easily accessible, is internationally oriented, and the use of English is prevalent. The University of Amsterdam (founded in 1632) is one of the largest European universities. The venue is located in the center of Amsterdam and has easy connections to famous attractions such as the Van Gogh museum and the Concert Hall.
