

Dr. Stephen Stark is the Associate Chair and an Associate Professor of Industrial and Organizational Psychology and Quantitative Methods at the University of South Florida. He received his Ph.D. in Psychology from the University of Illinois at Urbana-Champaign in 2002 after earning a B.S. in Physics from the University of New Orleans. Dr. Stark has taught undergraduate and graduate courses on industrial organizational psychology, tests and measurement, personality, personnel selection, psychometrics, and item response theory (IRT). He has extensive research and professional experience related to forced choice IRT models for noncognitive testing, computerized adaptive testing (CAT), differential item and test functioning detection (DIF/DTF), and aberrant response detection.

In addition to serving as Co-Editor of *International Journal of Testing* (IJT), Dr. Stark currently serves on the editorial boards of the *Journal of Applied Psychology* and the *Journal of Business and Psychology*, and he is a member of the *GRE Technical Advisory Committee* and the National Research Council *Committee on Measuring Human Capabilities*. Dr. Stark is also a Senior Fellow of the U.S. Army Research Institute Consortium Fellows Program and an active member of the *Society for Industrial and Organizational Psychology* (SIOP), the *American Psychological Association* (APA), the *American Psychological Society* (APS), and the *National Council on Measurement in Education* (NCME).
